## ***R&D Junior Product Developer Technology***

---

Ontex is a fast growing international company where people are the most valuable asset. To reinforce our R&D department, we are looking for a R&D Junior Product Developer Technology, reporting to R&D Senior Product Developer Technology.

### ***Your role***

---

The R&D Junior Product Developer Technology participates actively in strategic (long-term) product development projects. He/she performs the full scope of R&D tasks included in the stage-gate process, supporting the respective project leader. Moreover, he/she supports the R&D Senior Product Developer Technology in investigating new technologies and materials, in building and maintaining business relationships with strategic suppliers and external organisations, and in providing expert knowledge and analyses within the organisation.

- Support machine trials, both in preparation and execution phase, evaluate and summarize results.
- Organize lab and panel tests; evaluate and summarize results.
- Present data and analyses related to running project work in internal meetings, as well as for external partners.
- Design and build prototypes of absorbent products.
- Cooperate with Group Engineering for the introduction of novel machine technologies, and for the optimization of existing equipment.
- Cooperate with Group Marketing for identifying innovation opportunities.
- Gather, develop, and evaluate ideas for novel products (concepts, features, materials), and machine processes.
- Support the validation of new raw materials by executing R&D-related tasks within the RMVR system.

- • Support other functions by providing expert knowledge short-term, e.g. related to quality problems, customer requests, or operational issues.

### ***Your profile***

---

- Academic scientific or technical education
- Any professional experience, especially within R&D, would be an asset.
- Good analytical and organizational skills.
- Self-dependent and scientific way of working.
- Both visionary and results oriented.
- Strong communication skills. Good presentation skills.
- Very good skills in Dutch and English, other languages would be beneficial
- Very good team-working skills, openness to cooperate within the entire organization

### ***We offer you***

---

- Exciting and challenging projects with an international scope
- A unique environment where local and international talents work and win together
- A competitive salary

### ***Interested?***

---

- Please send your CV and motivation letter to Karen Imans before 15/02/2017.
