

Ontex R&D is looking for a

Developer Packaging

Ontex is a fast growing international company where people are the most valuable asset. To reinforce our R&D Packaging team, we are looking for a Developer Packaging based in Buggenhout with a focus on Healthcare / Incontinence. You will report directly into the Group R&D Manager Packaging.

Your role

You are a key contact for packaging developments and raw material validations across our producing plants and will play an important role in strengthening the packaging team

- In alignment with marketing, drive and deliver packaging innovation for the healthcare / incontinence business.
- Support the business in packaging related challenges. Provide solutions and drive them autonomously to realization.
- Lead and deliver raw material validation projects for packaging with a clear focus on in time delivery.
- Deliver yearly cost saving projects to support the Ontex productivity program
- Be frequently in contact with producing plants, suppliers, engineering and marketing

Your profile

- Master degree in engineering / product development / natural science
- Dynamic, flexible and open minded team player who can work autonomously in a fast changing environment.
- A minimum of 3 years of working experience in R&D, product development or project management preferably in an international context.
- Good communicational skills.
- Fluency in English is a must (speaking and writing). Knowledge of Dutch / French is an asset
- You are willing to travel (Ontex plants / suppliers / external meetings...)
- Good knowledge of the standard MS Office programs and knowledge of autocad is required

We offer you

- Exciting and challenging projects with an international scope
- A unique environment where local and international talents work and win together
- A competitive salary
